Most of the activities given are related to the topics given in textbooks, kindly make your wards do all the activities and let them do it themselves with minimum required supervision. Let's shape a self-reliant and independent child.

Summer vacation are the best time to develop the habit of reading and improve the handwriting of a student.

Teachers have recommended few storybooks, kindly buy them or you can buy others also, whichever you feel your ward will love to read. Create an environment where child loves to read storybooks. Let your child choose the books. Appreciate the child when he/she tries to read. Motivate them to read storybooks before sleeping every night. Let this habit continue throughout the year.

Help your child learn Tables for faster math's calculations.

The three things ie reading, writing and tables will keep reaping fruitful results for the years to come.

Some of the suggested activities for your child are -

- 1. Get up early in the morning and see the rising sun.
- 2. Go for a nature walk.
